SECTION II: OBJECT OF THE DESIGN CONTEST/DESCRIPTION OF THE PROJECT

II.1) **DESCRIPTION**

II.1.1) **Title attributed to the design contest/project by the contracting authority/entity**

Competition New Bauhaus Museum, Weimar.

II.1.2) **Short description**

Weimar owns a unique collection on the background, history and after-effects of Staatliches Bauhaus, which was founded here in 1919. In 1995 a temporary Bauhaus museum was set up. Now, thanks to a special funding programme run by the German government and the state of Thuringia, the Klassik Stiftung Weimar foundation is able to set up a new Bauhaus museum in Weimar. This project is part of the 'Kosmos Weimar' master plan, which covers all the foundation's facilities, giving Weimar the opportunity to set a succinct example in terms of architecture and urban development.

This competition is for planning this new building for Weimar Bauhaus Museum. The purpose of the competition is to find the best solution both for the new Bauhaus museum itself and for the location's urban development potential.

A key aspect of the first stage of the competition will be the development of a fundamental design concept, selecting a suitable location within the competition site and tackling the open spaces surrounding it in the context of urban planning. Furthermore, the urban design concept in Stage 1 is to include an appraisal of sites for a possible future museum extension and a kindergarten.

In the second stage of the competition the focus is on working in greater detail on the architectural and interior concept of the new museum building.

The solution to the task is expected to fit in with urban planning, be architecturally innovative and sustainable, save energy and stand up to museological requirements.

The funding body can provide the following budget for the construction of Weimar's new Bauhaus museum: cost of construction alone = sum for building (cost groups 300 + 400): 14 500 000 EUR gross.

The competition is being announced as an international, open, two-stage architectural competition according to German regulations on design competitions (RPW 2008). After the initial open stage, the jury will select 25–30 finalists for the second stage. The entire process is anonymous. The competition languages are German and English.

The competition is being held based on the principles and regulations of EU Services Directive 92/50/EC and German competition regulations (RPW 2008).

II.1.3) **Common procurement vocabulary (CPV)**

SECTION III: LEGAL, ECONOMIC, FINANCIAL AND TECHNICAL INFORMATION

III.1) **CRITERIA FOR THE SELECTION OF PARTICIPANTS**

III.2) **PARTICIPATION IS RESERVED TO A PARTICULAR PROFESSION**

Yes

To be eligible to take part, candidates must reside in the EU, Switzerland, an EEA member country or a GATT signatory country and be entitled to use the title "architect" according to the architectural laws of that country, or be entitled to work as an architect in the Federal republic of Germany according to EC directives, including, but not limited to, the directive on the mutual recognition of diplomas in architecture.

The competition is open to natural and legal persons fulfilling the professional requirements described in the call for entries, along with the other admission requirements.

Natural persons are deemed to have fulfilled the professional requirements if they are authorised to use the title "architect". Legal persons are deemed to have fulfilled the professional requirements if the business purpose in their articles of association is planning work corresponding to the task set in the competition. The authorised representative (to be named) and the originator of the competition submission must furthermore fulfil the professional requirements expected of natural persons. Teams of natural and legal persons are eligible to take part if every member of the team is eligible to do so. Every member of the team is to be named. Each practice may apply to take part only once.
