

HOW TO APPLY

PRE-REGISTRATION

Should be made sending via e-mail a short CV and application form (www.pism.uniroma3.it)
Delivery Deadline: Dec. 1st, 2011

ONLINE REGISTRATION

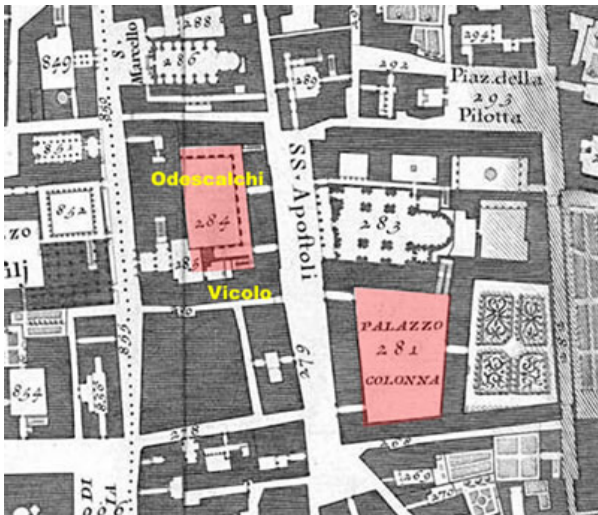

Online registration:
<http://asi.uniroma3.it/moduli/npr>

Registration fees = €250
received no later than 15 February 2012

Mature students

We welcome applications from mature students.

To find out more about the course visit
<http://www.pism.uniroma3.it/open-pism/>

TEACHING STAFF

Elena Mortola (Director) | **Alessandro Giangrande** | **Eleni Tracada** | **Stefano Serafini** | **Antonio Caperna** | **Paolo Mirabelli** | **Nikos A. Salingaros** |

All of the members of the group of international professors and lecturers have made relevant contributions in cutting-edge areas of **Participatory Design** and **Biourbanism**

LANGUAGE

This programme can be followed indiscriminately in English and/or Italian

DELIVERY

- Part Time Course
- Distance Learning (Videoconference)
- Lectures and Interactive Discussion.

Requirements for final grade

A 75 percent attendance of lectures is required. The workshops are recommended but not mandatory. The registration fees not include the cost for the workshops

Final Paper Assignment

Paper of 3/4.000 words

OPEN PISM

Short Course in:

Sustainable Participatory Design and Biourbanism

(Academic year 2011/2012)

TIPUS Lab
Università Roma Tre (Italy)

The Built Environment Research Group
University of Derby (UK)

International Society of Biourbanism (ISB)

Progettazione Sostenibile Partecipata (PSP)

Further details

<http://www.pism.uniroma3.it/open-pism/>

OVERVIEW

The Course in Sustainable Participatory Design and Biourbanism brings together two critical dimensions of sustainability: citizens participation and biourbanism as new paradigm.

The course, delivered via the internet (videoconference), is the first to provide basic education in biourbanism.

The students following the course shall acquire a:

- general knowledge about Architecture and context in XX Century;
- general understanding of the participatory design (tools and methods)
- special and basically knowledge about biourbanism (principles and tools).

COURSE CONTENT

Ten intensive lectures — plus two electives workshops — are completed sequentially within the year 2012.

Lectures:

- Theory and context in the XX Century
- Biourbanism. Basic skills
- Participatory design: Tools and methods
- Examples and best practices

INTERNATIONAL WORKSHOPS

The International Workshops are a two weeks, full-time programme consisting of challenging design studios, field study, seminars and lectures that emphasize the importance of both practice as well as theory. It offers participants a new theoretical approach to design urban environment based on biophilic and morphogenetic theories. Creative collaboration is encouraged with students working in distinct groups hailing from different countries.

Summer 2012: Participants not enrolled in the short course may register in individual workshop when space is available.

BIOURBANISM SCHOOL

Unique, dynamic, independent and international, Biourbanism School is much more than a school of architecture and urbanism. The school is the nexus of a global research network in Biourbanism for an human oriented architecture and urbanism. The Biourbanism' incarnations include a high-profile public events programme, lectures, symposia, seminars, conversations, research clusters and visits. Tutors, lecturers and critics include masters as well as practitioners pooled from diverse disciplines. All this takes place at the Biourbanism' newly consolidated campus home on its historic site in Ardena and Norma (Rome).

GENERAL INFORMATION

Organizations

University Roma Tre Master PIAC, in collaboration with The Built Environment Research Group - University of Derby (UK), Associazione Progettazione Sostenibile Partecipata; International Society of Biourbanism (ISB)

Period. January 15th / April 15th 2012

Deadlines

Pre-registration and admission before December 1st 2011

Registration before January 15th 2012

Max Number of participant: 25

Programme Fees: € 250

Fees for the workshops are not included.
